Subject: Objection to change of classification of Irvine road orchard

Dear sirs,

I write to register my objection to the proposed change in planning designation of Irvine road orchard from private open space to residential land. This has already been classified as not residential land in the LDP and I cannot see how this can now be reclassified, there is no need to build any more houses in the area and it is most important to protect any open spaces that are left. Indeed the areas infrastructure can not take any more houses as the existing schools are full and the children that already live in the area cannot get into them. The orchard is an important wildlife site and given the chance could be an important resource for the community, yet again high handed developers with money to throw around think that they are above every planning decision and can overturn them. I urge the council to protect the wildlife that still remains once it is built on it will never be returned.

Kind regards

Jenny stokes
