**Subject:** potential planning in Rowhedge

Hi

I am writing to you to object to any further planning permission of housing in Rowhedge. We are already growing with the near future build of the wharf development. The school is already bursting along with the doctors.. The village thrives with an identity of not being joined with old heath and having the distinct "gap" would just mean we are joining Colchester. The marshes are home to the wildlife and further development would definitely disturb their habitats of a long time they should be protected. I strongly object to any further houses to this village

Yours

Mrs N Crouchman
