ACTION PLAN FOR 2020 - 2021

Site: Salary Brook Date: April 2020		Month/ Season	Priority	Volunteer	Ranger	Contractor
1	Patrol and litter pick weekly, alternating between South and North of Oberon Close with more frequent visits as necessary to deal with reports of problems and issues	Ongoing	1		Х	
2	Monitor Grounds Maintenance Contract (GMC) schedule of work • Amenity grass cutting • Litter picking and bin emptying • Conservation grassland cutting	Ongoing	1		X	X
5	Cut back encroaching scrub along cycle path	Late Summer / Autumn	1	Х	Х	Х
6	Seek ways to reduce antisocial behavior particularly litter, fly tipping, fly tipping of garden waste and prohibited vehicles.	Ongoing	1		Х	
7	Control ragwort (Compartment 4)	June / July	1	Х	Х	
8	Assess height of hedge along cycle path behind student flats, reduce if required	Autumn / Winter	1		Х	
9	Inspect fishing swims, replace/repair as required	Summer	1	Х	Х	Х
10	Replace steps to ponds and steps near Titania Road	Spring / Summer	1	Х	Х	Х
11	Coppice 1/12 of cycle path hedge between Clingoe Hill and Pickfords Walk	Winter	1	Х	Х	Х
12	Select new site and install bench to replace burnt bench at pond.	Summer	2	Х	Х	
13	Gap up cycle path hedge where possible through Colchester Woodland Project	Winter	1	Х	Х	
14	Monitor width of bramble adjacent to cycle path hedge, strim if required	Autumn	1	Х	Х	
15	Organise 2 community Spring Tidies	Spring (2021)	1		Х	Х
16	Carry out annual tree inspection surveys	Ongoing			Х	Х
17	Carry out remedial work arising from tree inspection and emergency tree work as it occurs	Ongoing	1	Х	Х	Х
18	Inspect path surfaces	Ongoing			Х	

Seek ways to improve biological records by working with special interest groups.	Ongoing	1	Х	Х	
Continue to monitor dormouse population with licensed	Ongoing	1	Х	Х	
Work with Essex Wildlife Trust to carry out water vole, otter	Ongoing	1	Х	Х	
Revisit management plan and consider desirability and	Ongoing	1		Х	
Maintain rough grassland areas within C2 scrub by selective	Autumn / Winter	1	Х	Х	Х
Establish new areas of rough grassland within scrub in C2 to increase edge habitat by coppicing 'bays' of scrub.	Autumn / Winter	2	Х	Х	
Monitor tree and scrub cover in C3, C5, C6 particularly around play area, selectively coppice as required to maintain mosaic of habitat.	Autumn / Winter	1			
Continue rotational cutting of ditch vegetation in Berrimans pasture (C4)	Autumn	1			Х
Prevent further scrub encroachment in Berrimans pasture by selecting areas for coppicing	Winter	1	Х	Х	Х
Inspect ditch dams in Berrimans pasture, repair if necessary	Winter / Spring	2	Х	Х	
Asses willow along Pickford walk and river in C7 with a view to coppice and plant native black poplar through Colchester Woodland Project	Winter	2	Х	Х	Х
Assess quantity of scrub in marsh to inform future management decisions	Winter	1		Х	
Ensure ditch along Pickford walk from C Gooch land is free flowing, cut back vegetation and desilt as necessary	Autumn / Winter	1	Х	Х	
Assess willow along riverbank in C9 with view to coppicing and planting of native black poplar through Colchester Woodland Project	Winter	3	Х	Х	
Asses extent of scrub in C9 with view to reduce in future	Winter	3		Х	
Maintain short rotation coppice of willow in C11 by coppicing 1/3 of stand	Winter	2	Х	Х	Х
Asses scrub in C11 and select areas to coppice as necessary to prevent closed canopy scrub.	Winter	2	Х	Х	Х
Locate and check inspection hatches once a year for	Ongoing	1	Х	Х	Т
	special interest groups. Continue to monitor dormouse population with licensed surveyor Work with Essex Wildlife Trust to carry out water vole, otter and mink populations Revisit management plan and consider desirability and feasibility of suggested actions Maintain rough grassland areas within C2 scrub by selective removal of tree saplings and scrub.
