Not everyone on the housing register will be offered a property. Last year (April 2019 – March 2020) there were only **658** lets of affordable housing compared to almost **3,000** households on the register.

Registered Providers of social housing are independent societies, bodies of trustees or companies established for the purpose of providing low-cost social housing for people in housing need on a non-profit-making basis. They are also known as 'housing associations'.

The table below shows the total number of Colchester applicants who were housed via Gateway to Homechoice. The total is different to the that in the table above as some of the direct and transfer applicants were housed outside Colchester

Direct	392
Transfer	195
Homeless	140
<b>Total</b>	<b>727</b>

Please note this does not include households who have moved through mutual exchange. This is where an existing Council or Registered Provider tenant 'swaps' their home with another tenant.

## Homelessness and Housing advice

The Housing Solutions Team provides free, expert housing advice to residents of all tenures in the borough. The team has a strong focus on preventing homelessness and can advise people with housing problems or assist those people in finding somewhere to live.

In April 2018 a change in homelessness legislation with the introduction of the Homelessness Reduction Act, brought a significant change in the way the Housing Solutions Team assess homelessness applications and monitor outcomes.

The new Homelessness Reduction Act places two additional statutory duties on local housing authorities:

**The prevention duty** – requires councils to intervene to prevent homelessness at an earlier stage, when a household is at risk of losing their home in the next 56 days. This is particularly relevant for those living in privately rented homes who are served with notice and provides more opportunity to support people directly into another tenancy.

**The relief duty** - requires councils to offer more advice and support to anyone who is already homeless, regardless of whether they are in priority need and may involve offering accommodation.

The duties that existed under the previous homelessness legislation, known as the **main duty**, remain in place. A main housing duty is owed where homeless households are eligible (certain persons from abroad are ineligible for housing assistance), have a priority need for accommodation and are not homeless intentionally.

For the year 2019 - 2020, the Housing Solutions Team;

- prevented homelessness for **285** households and relieved homelessness for **146** households.
- Accepted a duty under the homelessness legislation for **230** households and helped them into accommodation.

The table below shows the number of cases where a homelessness duty has been accepted and where homelessness has been prevented or relieved for each quarter of 2020 – 2021:

	Quarter 1- April – June 2020	Quarter 2 July- September 2020	Quarter 3 October- December 2020	Quarter 4 January- March 2021
<b>Homelessness households accepted</b>	56	26		
<b>Homelessness prevention/relieved</b>	33 prevented 35 relieved	46 prevented 24 relieved	prevented relieved	prevented relieved

N.B Due to the change in homelessness legislation the information previously provided is no longer recorded in the same way: Homelessness Prevention and Relief statistics from partner agencies can no longer be added to the Housing Solutions Team statistics, as they were previously, and the criteria for prevention has changed.

During 2019-20 the Rough Sleeper Team worked with **158** clients who were provided with support, advice and assistance to help them move off the streets, and 144 rough sleepers were housed during the same period. These included rough sleepers housed in an emergency due to the Covid 19 Public Health pandemic.

From the beginning of April until the end of September 2020, the Rough Sleeper Team have provided 115 people with support and assistance. During the same period, 72 people have been accommodated through friends, Private Rented Sector, Supported Housing, Social Housing, and reconnection. These figures include people that have been provided with emergency accommodation during the Covid 19 public health emergency.

The Council has a statutory duty under the Housing Act 2002 to provide temporary accommodation to homeless people that are unintentionally homeless and in priority need, whilst they wait for more permanent accommodation to become available.

The number of households in temporary accommodation as of 31 March 2020 was **156**.

## Development of new homes

Between April 2017 and March 2018, a total of **1048** new homes were built in Colchester and between April 2018 and March 2019 there were **1165** new homes built.
